

RIGHTRAK DISTRICT MEAL SOFTWARE SUITE

District Meal Program (DsMP) for District/Central Office

PCS' RIGHTRAK District Meal Software Suite provides an inexpensive yet powerful solution for school districts. It is developed for Microsoft's Windows Platform.

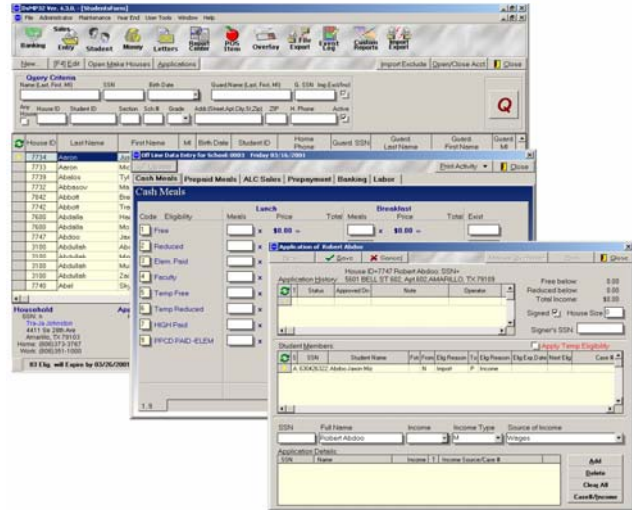

RIGHTRAK's Accountability and Free & Reduced application processing modules are built into this award winning software suite.

The District Meal Accountability module generates participation, revenue, reimbursement claims, edit check reports for the entire district and automatically communicates between the schools.

RIGHTRAK provides centralized Free & Reduced price meal application processing and verification. The system also supports bi-directional district enrollment and school database interfaces and includes direct certification and year round multi-track calendar support.

Features

- Process applications individually or by family
- Provides Reimbursement Reports
- Provides Edit Check Reports
- Full Audit Trail
