

S.I.F. AGENT FOR RIGHTRAK

Application

PCS has developed the S.I.F. Agent for District Meal Software to integrate with other School Interoperability Framework agents in a Z.I.S. (Zone Integration Server) environment.

Features

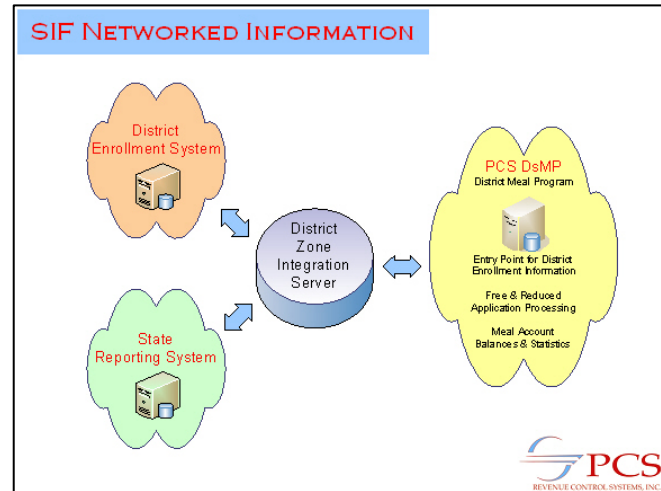

- New Students added before Lunch
- Student Meal Object Provided
- Complete Audit Logging

Benefits

- Saves Time and Money
- Integrates with Other S.I.F. agents
- Integrates with RIGHTRAK (DsMP)
- Integrates with *FASTRAK* (ScMP)
- Integrates with Student Enrollment

Daily Operational Requirements

- RIGHTRAK (DsMP) software
- *FASTRAK* (ScMP) software
- Zone Integration Server

Minimum Application Requirements

RIGHTRAK S.I.F. AGENT FOR DISTRICT MEAL SOFTWARE

Workstation

Processor	Pentium II 500 MHz or equivalent
Operating System	Win 98/NT/2000/XP
Memory	256 MB
Hard Drive	3 GB (program only)
Drive	CD-ROM drive
Display	SVGA 800 x 600, 16 Bit High Color
Network	10/100 Network Card, TCP/IP, IPX/SPX
Remote Diagnostics	PCAnywhere (v8.0 and up) or Webex WAN Connection

SQL Server/Server

Processor	Pentium III 1 GHz or equivalent
Memory	256 MB
Hard Drive	4 GB for installation and 20 MB per school
Other	Microsoft SQL, .NET
Network	10/100 Network Card, TCP/IP, IPX/SPX
Remote Diagnostics	PCAnywhere (v8.0 and up) or Webex WAN Connection
Part Number	115RTSIFA
