Your web-based solution to successful inventory management...it's that easy, sweet!

ezSuite Inventory

Saves time and money, replacing time consuming, high maintenance paper systems and spread sheets with one easy to use program.

Getting started is easier than ever. Just select from hundreds of pre-coded inventory items in our *Quick Start Package or download from existing spread sheets.

ezCount provides customizable electronic and printed count sheets, valuation reports per school and a district summary to update district financial systems each month.

ezOrder provides customizable electronic and paper shopping lists for quickly creating requisitions that automatically order product from the district designated vendors.

ezTrak provides perpetual inventory capabilities wherever you need it, including picks, automatic adds based on receiving, invoice reconciliation and tracking of loss due to spoilage and breakage.

Additional modules include:

ezShip provides supply orders and transfer functions between sites, warehouses, central kitchens and other sites.

ezBid provides central office management of bid creation, publishing of MS Excel bid forms to vendors, importing of vendor bids, analysis of bids and quotes, and automated ranking of bid results, including award and audit reports, plus automatic price updating.

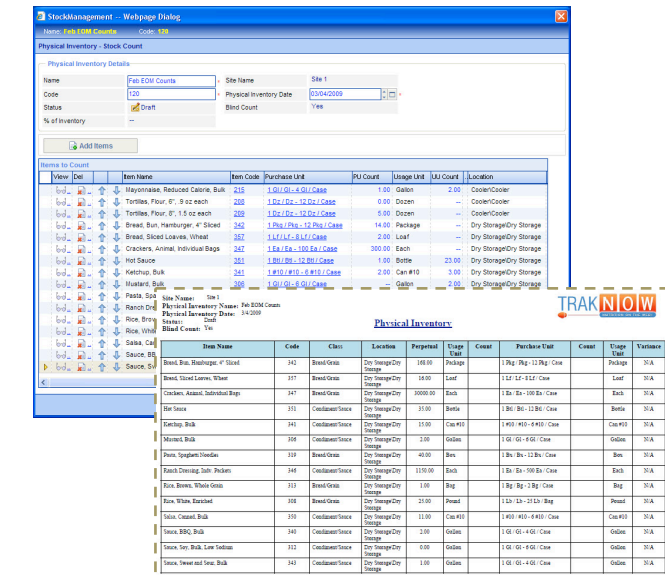

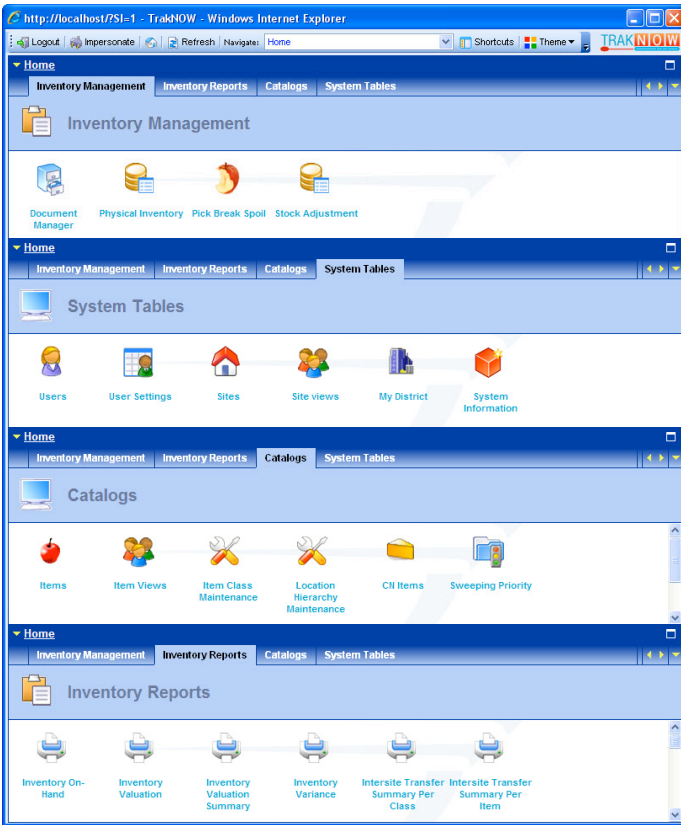

Start simple and keep adding modules as you are ready for more features:
